

Shorewood Board of Appeals Meeting Agenda

August 9, 2016 at 5:30 P.M.

Shorewood Village Hall Court Room
3930 N. Murray Avenue, Shorewood, WI 53211

1. Call to Order.
2. Roll Call.
3. Statement of Public Notice.
4. Approval of July 12, 2016 meeting minutes.
5. Attorney to Review the Standards by which the Board of Appeals must abide.
6. Public Hearing: Appeal of denial of building application to construct a pergola within the zoning rear setback at residential property 4030 N. Downer Ave.
7. Public Hearing: Appeal of denial of HVAC application to install an air conditioning unit within the street side yard zoning setback at residential property 2200 E. Jarvis Street.
8. Public Hearing: Appeal of denial of building application to construct a parking slab within the side yard setback at residential property 4540-42 N. Morris Blvd.
9. Public Hearing: Appeal of notice to reduce height of fence from 6 foot to 4 foot at residential property 4503-05 N. Marlborough Drive.
10. Public Hearing: Appeal of notice to construct a detached garage at residential property 4604 N. Woodruff Ave.
11. Adjournment.

PLEASE BE ADVISED THAT A REPRESENTATIVE OF THE APPLICANTS FOR THE ABOVE ITEMS MUST BE PRESENT AT THIS MEETING.

Dated at Shorewood, Wisconsin, this 3rd day of August, 2016

RE: Board of Appeals – 4030 N. Downer Ave

The Village received a Board of Appeals application on May 26, 2016 from property owners Sandra and Tom McLellan, who are requesting a variance for a pergola proposed within the zoning rear yard setback. The building application was denied May 6, 2016.

The property is located in the R-6 Zoning District; Village zoning code section 535-19 F. (5) states: *Setback: (a) rear, minimum three feet. The gazebo is about one foot within the side yard setback.*

The northeast corner of the pergola is located two feet from the rear lot line. Per the survey, the rear yard angles, so the remaining pergola is not within the rear setback.

- 8.75-foot pergola height at far northern post
- 5.5 feet from the northern side property boundary
- No roof
- 18” overhang, possibly reduce to 14”

Materials provided:

1. BOA application
2. Applicant materials
3. Pictures
4. Building application
5. Denial letter
6. Survey

I/We are requesting a: (refer to guidelines for explanation)

variance
 special exception
 appeal to interpretation to allow

Describe in detail the reason you are applying for a Board of Appeals application:

Our lot is at an angle, with the main part of the patio on average 4 feet from the fence. We would like to place one of the 6 posts for a Pergola 26-30 inches rather than 36 inches from the lot line; the posts will be set >3 feet from the lot line. We are requesting a 6 inch (min) to 12 inch (max) variance for one post.

MATERIALS REQUIRED WHEN APPEAL IS PROPERTY-BASED (FIVE COLOR COPIES OF EACH) :

Picture – Of front of property taken from street curb
 Picture(s) – Of property area in question
 Property survey marked with appropriate dimensions

Variance Granting Criteria

- Describe how the hardship is due to physical limitations (lot shape, lot size, grade, drainage, neighboring uses, access, etc.) of the property rather than the circumstances of the appellant (economic, family, personal, and physical [other than certified disability] hardships are not considered, nor are the nature, condition or configuration of structures or improvements on the property):
 Our lot is angled, with the lot line ~3 ft shorter on the north east corner than the lot line on the other end of the patio (~25 ft span, see drawing). The total different from the north east corner to the south east corner of the lot is 10.5 ft (see survey). We would like to build a pergola that is parallel with the garage and existing patio, and have it border the patio. See photos and drawing.
- Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created.
 The angle of the back lot line makes it very difficult to create a design that is aesthetic and one that would improve the property. With the angled lot line, moving the pergola forward to meet the 3 foot requirement for all the posts would leave a gap over most of the span between the patio edge and the fence.
- Describe how you think the granting of this variance would not harm public interest such as public safety, the environment, property values, etc.:
 The pergola is along the back lot line; it would only enhance the properties around it with an added feature besides the bare fence and power lines.

OFFICE USE ONLY – Findings of the Board of Appeals after consideration of the criteria		
Reason for Application:		
Applicant's Appeal Ruling	APPROVED	NOT APPROVED
Reason for Ruling:		

* Please verify with the Planning and Development Department prior to placement on the Board of Appeals Agenda whether site plans or other documentation are required.

* A copy of the Board of Appeals Meeting Agenda will be mailed to the applicant/contractor unless otherwise indicated or emailed if an email is provided.

Applicant Signature

May 6, 2016

Mrs. Sandra McLellan
4030 N. Downer Ave.
Shorewood, WI 53211

Dear Mrs. Sandra McLellan,

Your building application for the rear yard pergola at property address 4030 N. Downer Ave. has been respectfully denied per Village Code 535-19 F. Your application was submitted May 6, 2016.

The property is located in the R-6 Zoning District; Village code section 535-19-F (5) (b) states: Setback: Rear, minimum: three feet.

The plans provided indicate the NE corner of the proposed pergola 2' feet from the East property line, putting it into the required setback area.

You do have the right to appeal this decision, or provide new plans meeting the setback requirements. (See attached Board of Appeals Application).

I may be reached at 414-847-2643 should you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Justin Burris". The signature is written in a cursive, flowing style.

RE: Board of Appeals – 2200 E. Jarvis St

The Village received a Board of Appeals application on June 21, 2016 from property owners Paul and Patti Rohde, appealing the denial of a HVAC application that identifies an AC unit within the street side yard setback.

The property is located in the R-6 Zoning District; Village zoning code section 535-19 F. (5) states:

Setback: (c) Side: [2] street side: 25% of the width of the lot but not less than 10 feet, provided that the buildable width of the lot shall be not less than 20 feet.

To meet zoning code setbacks, any structure on this parcel must be 31.875 feet from the street side property boundary. Per the attached site plan, the house is located 22 feet from the side boundary, measured to the bay or 31.083 feet measured to the primary structure. The AC unit outside edge is measured 27.5 feet from the side boundary and is entirely within the setback. Given the house is not setback 31.875 feet from the property boundary, it is a legal nonconforming structure.

Materials provided:

1. BOA application
2. Pictures/aerials
3. Denial letter dated 6/16/16

I/We are requesting a: (refer to guidelines for explanation)

- variance
 appeal to interpretation to allow
 special exception regarding parking
 special exception other

Describe in detail the reason you are applying for a Board of Appeals application:

We are applying for a Board of Appeals application to request placement of our air conditioning unit on the west facing side of our home.

Variance Granting Criteria

1. Describe how the hardship is due to physical limitations (lot shape, lot size, grade, drainage, neighboring uses, access, etc.) of the property rather than the circumstances of the appellant (economic, family, personal, and physical [other than certified disability] hardships are not considered, nor are the nature, condition or configuration of structures or improvements on the property):

Due to our lot being on a corner and on a tight site, we only have two options of where to locate our A/C unit. Both possible locations would be visible to the street. Though it is technically within the set back, the southeast location would be very visible to the front street and would also be visible on the front side of our house (south facing). The northwest side is not within the set back, but would be much more hidden, both from our neighbors and from the street due to a berm and plantings. Moreover as our house stands the west side is existing, non-compliant and not within the set back. The northwest location would also be hidden behind our sun room, so not visible when looking at the front of our house.

2a. Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created.

Unnecessary hardships by locating the A/C unit on the southeast side (our non-preferred location) include: having a large A/C unit visible on the front side of our house, which is currently the only possible placement location; the southeast location would be disruptive visually and add noise to the one side of the house that has an outdoor gathering area; placing the unit on the southeast corner limits planned future expansion or side yard outdoor area improvements.

2b. Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created.

See 2a.

2c. Describe how the proposed variance is not in conflict with the purpose of the Code restriction:

Our house is already categorized as existing non-compliant, if the unit is placed on the northwest side (preferred location) it will still be within the boundary of the house.

3. Describe how you think the granting of this variance would **not** harm public interest such as public safety, the environment, property values, etc.:

The northwest side (preferred location) is a much more hidden location from both our neighbors and from the street. There is a berm on our neighbor's side which hides the unit from them. They have approved the northwest location with an approval letter. There are also plantings and a sun room that juts from the house that would hide the unit from public view walking by. The northwest location would also not be visible when looking at the front of our house.

RE: 2200 E. Jarvis St. A/C Condenser unit

To whom it concerns,

Your HVAC application for the placement of the air conditioner condensing unit at 2200 E. Jarvis St. has been respectfully denied per Village Code 535-19 F.(5). Your application was submitted June 16, 2016.

The property is located in the R-6 Zoning District; Village code section 535-19 F. (5) states: Setback:

(b) Rear, minimum: three feet.

(c) Side: [1] Interior, minimum: three feet.

[2] Street side: 25% of the width of the lot but not less than 10 feet, provided that the buildable width of the lot shall be not less than 20 feet.

The street side yard setback for the property is 31.875'. As the property is approximately 30' from the property line (making it an existing non-conforming structure) placing the condensing unit on the West side of the house would make it entirely within the street side yard setback which is prohibited.

Should you decide to appeal, please submit your Board of Appeals application and supporting materials on or before June 22, 2016. The next scheduled meeting will be held on July 12, 2016 at 5:30 pm. The applicant or a representative must be present for the application to be heard.

I may be reached at 414-847-2643 should you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Justin Burris". The signature is written in a cursive, flowing style.

Re: 2200 East Jarvis Street A/C Unit Placement

To Whom It May Concern:

We understand that our neighbors, Paul and Patti Rohde at 2200 East Jarvis Street, would like to place an A/C unit on the northwest corner of their house. They have discussed this with us and we viewed the placement location together. We feel it would not negatively impact us as it would be hidden from our view in this location.

Sincerely,

RE: 4540-42 N. Morris – parking slab

The village received a Board of Appeals application on July 6, 2016 from property owner Liesel Geyer Gilmore, appealing the denial of construction a single-car parking slab that would be within the side yard zoning setback. Parking slabs are considered structures and must meet zoning setback requirements.

The property has a two-car detached garage accessed via a rear alley. Per 535-449H(4) two-family dwellings may install up to a two-car parking slab alongside a garage. The proposal is for a 9' x 22' slab. As a point of reference, the minimum required parking stall size in a lot is 9' x 18'. Currently there is a narrow path and dirt on the north side of the garage, which is the proposed location.

Per the attached survey, the distance between the garage and the northern property boundary is 10.2 feet, locating the slab within 1.8 feet of the zoning side yard setback (or 1.2 feet from side property boundary). Per 535-19F(5)[c] the zoning interior side yard setback is 3 feet.

The property is located in the R-6 residential zoning district, allowing one- and two-family residences. The property is a nonconforming lot size because the lot width is 30 feet. Per 535-F(3)[a], minimum lot width is 40 feet.

variance special exception

appeal to interpretation to allow

Describe in detail the reason you are applying for a Board of Appeals application:

- Parking slab on north side of garage needs to extend into 3' side setback area. See attached Survey Drawing.

MATERIALS REQUIRED WHEN APPEAL IS PROPERTY-BASED (FIVE COLOR COPIES OF EACH):

Picture - Of front of property taken from street curb

Picture(s) - Of property area in question

Property survey marked with appropriate dimensions

Variance Granting Criteria

1. Describe how the hardship is due to physical limitations (lot shape, lot size, grade, drainage, neighboring uses, access, etc.) of the property rather than the circumstances of the appellant (economic, family, personal, and physical [other than certified disability] hardships are not considered, nor are the nature, condition or configuration of structures or improvements on the property): In order to have a 9' wide parking slab on north side of garage similar to other properties on the block we are asking to encroach on the 3' setback area by approx 2' which will allow for parking three cars for this duplex.

2. Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created. 3 parking spots for vehicles is needed since this is a duplex with 3-4 adults residing in the building.

3. Describe how you think the granting of this variance would **not** harm public interest such as public safety, the environment, property values, etc.: This type and configuration of parking slab is common in the neighborhood and will not disturb the neighbors or their properties.

RE: 4503-05 N. Marlborough fence appeal

The village received a Board of Appeals application on July 20, 2016 from property owner Jo Ellen Bilgo, appealing the correction notice from the village to lower the rear yard fence height of a recently constructed solid wood fence to meet village code. The fence is six feet tall and is adjacent to residential property 1022 E. Kensington. The fence parallels the side yard of the neighboring property.

The property is located in the R-6 residential zoning district, allowing one- and two-family residences. The property is a nonowner-occupied two-family dwelling.

Per building code 225-8 (5) No fence more than four feet in height may be erected between adjoining properties when the fence parallels an existing residence and the distance between the fence and the residence on either property is less than six feet.

Fence facts:

- Fence located rear yard
- 6-foot height, solid cedar
- 3.25 feet distance fence to neighbor's house 1022 Kensington
- 3.76 feet distance fence to 4503 Marlborough

I/We are requesting a: (refer to guidelines for explanation)

- variance
- appeal to interpretation to allow
- special exception regarding parking
- special exception other

Describe in detail the reason you are applying for a Board of Appeals application:

Variance Granting Criteria

1. Describe how the hardship is due to physical limitations (lot shape, lot size, grade, drainage, neighboring uses, access, etc.) of the property rather than the circumstances of the appellant (economic, family, personal, and physical [other than certified disability] hardships are not considered, nor are the nature, condition or configuration of structures or improvements on the property): MY BACKYARD HAS A SMALL COURTYARD OFTEN USED BY THE TENANTS AS WELL AS MYSELF WHEN I PREVIOUSLY LIVED THERE. THE NEIGHBORS DECK IS EXTREMELY CLOSE TO MY PROPERTY LINE. THEY HAVE NO PRIVACY WHEN OUTDOORS EITHER.

2a. Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created. THE NEIGHBORS HOME TO THE WEST OF MY BACKYARD WAS BUILT EXTREMELY CLOSE TO MY PROPERTY LINE. NO ONE HAS THE PRIVACY THEY DESERVE. THE FENCE DOES NOT BLOCK ANY VIEWS OTHER THAN INTO THE NEIGHBORS LIVING ROOM AND BEDROOM FROM THE 1ST FLOOR UNIT OF MY HOME AND VICE VERSA. (SEE PHOTOS)

2b. Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created.

2c. Describe how the proposed variance is not in conflict with the purpose of the Code restriction:

WITH ALL DUE RESPECT I AM UNFAMILIAR WITH THIS CODE RESTRICTION

3. Describe how you think the granting of this variance would **not** harm public interest such as public safety, the environment, property values, etc.: THE 6' FENCE PREVENTS THE CHILDREN NEXT DOOR FROM CLIMBING OVER THE 4' FENCE AND INJURING THEMSELVES WHEN RETRIEVING THEIR BALLS AND TOYS. IN MY ESTIMATION THE 6' FENCE INCREASES THE PROPERTY VALUES DUE TO THE SAFETY AND PRIVACY IT PROVIDES FOR BOTH PROPERTIES.

OFFICE USE ONLY – Findings of the Board of Appeals after consideration of the criteria

Reason for Application:

Applicant's Appeal Ruling

APPROVED

NOT APPROVED

Reason for Ruling:

* Please verify with the Planning and Development Department prior to placement on the Board of Appeals Agenda whether site plans or other documentation are required.

* A copy of the Board of Appeals Meeting Agenda will be mailed to the applicant/contractor unless otherwise indicated or emailed if an email is provided.

REGARDING Property: 4503 05 N MARLBOROUGH DR
PERMIT #: P16-0714 INSPECTION DATE: 06/21/2016

Description of Work: Install fence in rear yard

ACTION REQUIRED:

1. No fence more than four feet in height may be erected between adjoining properties when the fence parallels an existing residence and the distance between the fence and the residence on either side is less than six feet, garages not included. Adjust the height of the fence between the houses to no more than four (4) feet in height as measured from the adjoining property.

EXTENSION: If an extension is needed to comply with this order, please forward a written request, addressed to the undersigned, stating your phone number, your mailing address, the action you are taking towards compliance and the anticipated completion date.

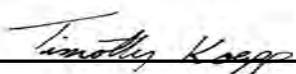

APPEAL: If after discussions with staff, you find that you are not in agreement with the enforcement of the above listed item(s), it is your right to appeal to Shorewood's Board of Appeals within 30 days of receipt of this order, where applicable. APPEALS SHALL NOT BE CONSIDERED FOR violations under Wisconsin's State Uniform Dwelling Code, Commercial Code or other state regulations. Please contact the Planning and Zoning Administrator at (414) 847-2647 to discuss your right to appeal. Forms and explanations are available at the Planning & Development Department at Village Hall or online on the Village website *villageofshorewood.org*.

NEXT STEPS: You are strongly encouraged to contact the Planning & Development Department as soon as you receive this letter so that we can work together to bring the above referenced violation(s) into compliance. Please call the Planning & Development Department at (414) 847-2640 Monday through Friday, 8am-4:30pm.

YOU WILL HAVE 30 DAYS TO COMPLETE CORRECTIONS AND CALL FOR INSPECTION.

Re-inspection or additional fee payable BEFORE re-inspection \$ 0.00

225-8 Fences & Retaining Walls.

A. Definitions: As used in this section, the following terms shall have the meanings indicated:

RETAINING WALL

A wall of any material to resist the lateral displacement of soil, the slope of which is greater than 1.5 horizontal to 1 vertical.

B. Fences

- (1) All fences which extend 16 linear feet or more, or which are erected or constructed to a height of more than four feet, shall require a building permit and a fee as provided by the Village Fee Schedule.
- (2) All fences erected or constructed in the front setback area as established under the provisions of § 535-19E(5) of the Village Code shall be limited to a height of no more than four feet; provided, however, that on corner lots, where adjacent to a public walk or street, all fences erected or constructed to a height of more than four feet shall conform to the building setback provisions of § 535-19E(5) of the Village Code.
- (3) All fences erected directly across from any garage in an alley, the width of which is 15 feet or less, shall be set back a minimum of three feet from the alley line.

[Amended 9-4-1990 by Ord. No. 1582]

- (4) No fence shall be erected or constructed which exceeds a height of six feet.
- (5) No fence more than four feet in height may be erected between adjoining properties when the fence parallels an existing residence and the distance between the fence and the residence on either property is less than six feet.

[Amended 2-6-2004 by Ord. No. 1862]

- (6) All fences erected shall have the structural components thereof facing the side of the property for and on which the same are erected. Barbed wire shall not be used for fence purposes, and all fences shall be so constructed as to withstand a wind pressure of at least 30 pounds per square foot
- (7) Chain link and barbed style fences are prohibited in the Village of Shorewood, except, chain link fences with top barb ends knuckled are allowed in residential districts side yard or rear yard.
- (8) The height of any fence erected under this section shall be determined by the measurements from the uppermost point of the fence relative to the immediate existing adjacent ground level of the adjoining property.
- (9) All fences shall be erected within the dimensions of the lot according to survey. *Editor's Note: Added at time of adoption of Code (see Ch. 1, General Provisions, Art. I)*

C. Retaining walls

- (1) No person or firm shall construct, install, enlarge, alter, repair or replace any retaining wall until a building permit has first been obtained, and other provisions of this section have been complied with. Construction site plans accompanied with current property survey are required to be submitted for review by the building inspector prior to the issuance of a building permit and commencing of wall construction. These plans are to include: wall placement location(s), details of installation with regard to height, depth, length of wall and type of reinforcement and or pinning to be used.

Exceptions under this provision includes:

- (a) Edgings. Edgings less than six inches in height of metal, stone, brick, concrete, timber or other materials around driveways, patios, gardens, flower beds, plantings, or trees.
 - (b) Decorative walls. Decorative walls not in excess of two feet in height used around gardens, plantings, trees, patios, or driveways and constructed of natural stone, brick or timbers.
- (2) Retaining walls shall be constructed of textured concrete block, natural stone, manufactured stone block specifically designed for retaining walls and shall be installed as per manufacture's specifications.

Retaining walls may be constructed with treated landscape timbers, having a minimum preservation retention level (PRL) of 0.40, and shall be limited in height to two feet relative to adjacent grade.

All retaining walls exceeding two feet in height relative to adjacent grade require a construction review by the Building Inspector prior to construction, and upon recommendation by the building inspector, may require a detailed design submittal generated by a licensed civil or structural engineer.

- (3) Retaining walls are not to be constructed in a manner which would adversely affect current stormwater management of property or any adjoining properties.
- (4) Retaining walls shall not be constructed or supported in any manner with railroad ties, plywood, logs, pipes, metal, fiberglass, or any other material not specifically manufactured for use as a retaining wall.
- (5) Retaining walls shall be constructed using appropriate engineering standards or per manufacture's specifications.
- (6) Retaining walls shall be kept and maintained in good sound and presentable condition at all times.
- (7) The appearance, materials, design, location and height are to be harmonious with the principal structure.

August 3, 2016

To: Board of Appeals – meeting August 9, 2016
Cc: Village Attorney Nathan Bayer

From: Planning Director Ericka Lang

RE: 4604 N. Woodruff Ave - garage

The village received a Board of Appeals application on July 7, 2016 from property owner Tanner Teipel, appealing the denial for the reconstruction of a driveway and requesting a variance. The driveway was reconstructed before a permit was issued. The application was denied because the driveway does not lead to a garage per 535-9F(4).

The single family dwelling was built in 1950 without a garage. A copy of a 1951 plat of survey is attached and does not show a garage. The property is located in the R-6 residential zoning district, allowing one- and two-family residences. The property is a nonconforming lot because the lot width is 39 feet. Per zoning section 535-F(3)[a], minimum lot width is 40 feet.

Lot:

- 39'w x 131.4'd
- 8' driveway width and the distance between south side house to side property boundary
- 8' min driveway width required per 535-9F(5)
- 5,124.6 sqft lot size. Min requirement 4500 sqft

Materials

- BOA application
- Building permit
- Survey

I/We are requesting a: (refer to guidelines for explanation)

- variance
- special exception
- appeal to interpretation to allow

Describe in detail the reason you are applying for a Board of Appeals application:

My home at 4604 N. Woodruff was in need of a driveway. I arranged to have the existing one replaced. When the contractor's wife applied for a permit she gave shorewood the wrong address. Shorewood told her the home was in Whitefish Bay. Whitefish Bay told her no permit was needed so the contractor went ahead with the pour. After the job was completed, the inspector notified me of the ordinance which requires a driveway to lead to the garage. The problem with the permit was human error and has been rectified with no fines imposed. Inspector Justin explained that at this point I needed to apply for a variance.

MATERIALS REQUIRED WHEN APPEAL IS PROPERTY-BASED (FIVE COLOR COPIES OF EACH) :

- Picture – Of front of property taken from street curb
- Picture(s) – Of property area in question
- Property survey marked with appropriate dimensions

Variance Granting Criteria

1. Describe how the hardship is due to physical limitations (lot shape, lot size, grade, drainage, neighboring uses, access, etc.) of the property rather than the circumstances of the appellant (economic, family, personal, and physical [other than certified disability] hardships are not considered, nor are the nature, condition or configuration of structures or improvements on the property):

I believe that the reason no previous owners have installed a garage was that the lot was long and narrow. There is almost no space between my home and my neighbors home to comfortably get a car to a garage in the back yard. The property also has a back porch and some old cedar trees in back which would need to be removed for a garage. Both provide year round appeal to the home and enhance the backyard.

2. Describe how unnecessary hardship exists because compliance is unreasonably burdensome. The hardship must be unique to the property and cannot be self-created.

I am in the process of getting ready to sell the house and wanted to update the driveway for curb appeal. I was not aware that a garage needed to be in place for a new driveway to be installed. Because of the mix-up with the permit I was not made aware of this requirement until the driveway was already installed and the inspector notified me. Adding a garage at this point would be a financial burden that I cannot take on.

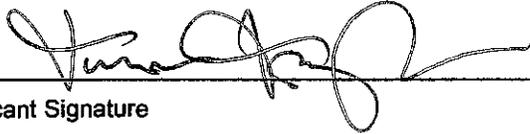

3. Describe how you think the granting of this variance would **not** harm public interest such as public safety, the environment, property values, etc.:

The old driveway was an eyesore. It was very narrow uneven surface of concrete blocks rutted with mud and grass which made it difficult to drive on. Because of the narrow width there was no room to get out of the car. The new driveway is clean, even, and slightly wider. It not only gives the house curb appeal and improves the property value of my house and the neighborhood, but also directs the water flow away from the house.

OFFICE USE ONLY – Findings of the Board of Appeals after consideration of the criteria		
Reason for Application:		
Applicant's Appeal Ruling	APPROVED	NOT APPROVED
Reason for Ruling:		

* Please verify with the Planning and Development Department prior to placement on the Board of Appeals Agenda whether site plans or other documentation are required.

* A copy of the Board of Appeals Meeting Agenda will be mailed to the applicant/contractor unless otherwise indicated or emailed if an email is provided.

Applicant Signature

July 7, 2016

J&J General Contractors Inc.
P.O. Box 64302
Milwaukee, WI 53204

Owner: Tanner Teipel
4604 N. Woodruff Ave.
Shorewood, WI 53211

To whom it concerns,

Your building application for the replacement of the existing driveway at property 4604 N. Woodruff Ave. has been respectfully denied per Village Code 535-9 F. (4) and 535-47 A. (4) (a) . Your application was submitted July 7, 2016.

The property is located in the R-6 Zoning District; Village code section 535-9-F (4) Site Restrictions states: "Driveways shall not be constructed unless they lead to a garage" and Village code section 535-47 A. (4) (a) Schedule of requirements states: "Single-family dwellings: there shall be a minimum of one parking space in an approved garage."

The building permit application for the driveway replacement has been denied due to the driveway not leading to a garage.

You do have the right to appeal this decision, or provide new plans for the replacement of the driveway to include the construction of a garage. (See attached Board of Appeals Application).

I may be reached at 414-847-2643 should you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Justin Burris".

Chapter 535. Zoning

Article III. General Provisions

§ 535-9. Site restrictions.

- A. Unsuitable land. No land shall be used or structure erected where the land is held unsuitable for such use or structure by the Planning and Development Department by reason of flooding, concentrated runoff, inadequate drainage, adverse soil or rock formation, unfavorable topography, low percolation rate or bearing strength, erosion susceptibility, or any other feature likely to be harmful to the health, safety, prosperity, aesthetics and general welfare of this community.
- B. Lots. All lots shall abut upon a public street, and each lot shall have a minimum frontage of 40 feet except as otherwise provided in this chapter.
- C. Buildable lot. No lot shall be considered a buildable lot if it abuts a public street dedicated to only a portion of its proposed width and located on that side thereof from which the required dedication has not been secured.
- D. Building on divided or replatted lot. It shall be unlawful for any person, firm or corporation to erect any building or structure on a lot divided or replatted in violation of the area and frontage requirements of the district where located, except as provided under § 535-22 of this chapter.
- E. Principal structures. All principal structures shall be located on a lot, and only one principal structure shall be located, erected, or moved onto a lot unless otherwise provided in this chapter.
- F. Decks, patios and driveways.
 - (1) No deck, patio, or driveway shall be constructed unless a Village building permit is applied for and issued by the Village in accordance with the requirements of the Village Code.
 - (2) Decks shall not be located in the front yard or the side or rear setback of a lot, and patios shall not be located in the side or rear setback of a lot.
 - (3) Patios may be located in the front yard or street side yard only when constructed within the following parameters:
[Amended 2-16-2016 by Ord. No. 2059]
 - (a) No more than 30% of any front yard or street side yard may be covered by a patio.
 - (b) One entire side of a patio must be directly adjacent to the principal structure of the lot.
 - (c) Front yard patios and street side yard patios shall not be more than three feet from the property front yard and street side yard lot line.
 - (d) A scale drawing of the proposed layout of a new front yard or street side yard patio must be completed, along with a list of proposed materials to be used in construction, all of which shall be submitted to the Design Review Board for review and approval. All materials must be of high quality, such as cut stone, Lannon or blue stone, or decorative concrete. In addition the stone surface shall be screened from public view by natural vegetation. No fences shall serve as the primary screening materials.
 - (4) Driveways shall not be constructed unless they lead to a garage, except that circular driveways may be located in the front yard, provided that there is a garage or a garage is being constructed on the lot contemporaneously and provided that:
 - (a) An applicant for a permit to construct a circular driveway must submit a sketch of the proposed layout and landscape screening in addition to any other information that the Building Inspector or the Design Review Board may reasonably require in order to comply with this section;
 - (b) The design and materials used are aesthetically compatible with the surrounding neighborhood;
 - (c) The width of the lot at the front property line is at least 60 feet to allow for an adequate turning radius;
 - (d) There is landscaping necessary to adequately screen it from street view that does not impair the vision triangle; and

- (e) The plans, including the landscaping, have been reviewed and approved by the Design Review Board.
 - (5) Newly constructed or reconstructed driveways shall have a minimum width of eight feet. In cases of reconstruction of driveways the Building Inspector may waive the minimum width where it is not practically possible to reconstruct an existing driveway to that width, but the reconstructed driveway may not be narrower than it was prior to reconstruction.
- G. At least 30% of each lot shall be planted with grass, shrubs, trees or other forms of vegetation.
- H. River shorelands.
[Added 10-23-2006 by Ord. No. 1917]
- (1) Findings of fact. Uncontrolled use of the shorelands and pollution of the navigable waters in the Village of Shorewood would adversely affect the public health, safety, convenience, and general welfare and impair the tax base.
 - (2) Purpose. For the purpose of promoting the public health, safety, convenience and welfare, this Subsection **H** has been established to:
 - (a) Further the maintenance of safe and healthful conditions and prevent and control water pollution through:
 - [1] Limiting structures to those areas where soil and geological conditions will provide a safe foundation.
 - [2] Controlling filling and grading to prevent serious soil erosion problems.
 - (b) Protect spawning grounds, fish and aquatic life through:
 - [1] Preserving wetlands and other fish and aquatic habitat.
 - [2] Regulating pollution sources.
 - [3] Controlling shoreline alterations.
 - [4] Reducing effluent and controlling nutrients.
 - (c) Control placement of structures and activities through:
 - [1] Prohibiting certain activities detrimental to the shoreland area.
 - [2] Regulating building setbacks from the river.
 - (d) Preserve shore cover and natural beauty through:
 - [1] Restricting the removal of natural shoreland cover.
 - [2] Preventing shoreline encroachment by structures.
 - [3] Controlling shoreland excavation and other earthmoving activities.
 - (3) Areas to be regulated.
 - (a) Areas regulated by this Subsection **H** shall include all the lands (referred to herein as "shorelands") in the Village of Shorewood which are located within the described boundaries:
 - [1] South of Capitol Drive. The Milwaukee County Park System Trail to the east, East Capitol Drive to the north, the ordinary high-water mark of Milwaukee River to the west, and Village limits to the south.
 - [2] North of Capitol Drive. Estabrook Parkway Road, Village limits to the north, the ordinary high-water mark of Milwaukee River to the west, and East Capitol Drive to the south.
 - (b) The area regulated by this Subsection **H**, generally described herein, is shown on a map dated October 1, 2006, that is maintained and available for inspection at the Village Hall. This map shall be known as the "Shoreland Zoning Map." "Ordinary high-water mark" means the point on the bank or shore up to which the presence and action of surface water are so continuous as to leave a distinctive mark, such as by erosion, destruction or prevention of terrestrial vegetation, predominance of aquatic vegetation, or other easily recognized characteristics.
 - (4) Compliance. The use of any land or water, the size, shape and placement of lots, the use, size, type and location of structures on lots, the installation and maintenance of water supply and waste disposal facilities, the filling, grading, or dredging of any lands, the cutting of shoreland vegetation, and the subdivision of lots shall be in full compliance with the terms of this Subsection **H** and other applicable local, state or federal regulations. Buildings, signs and other structures shall require a permit unless otherwise expressly excluded by a provision of this Subsection **H**. Property owners and their agents or lessees, including builders and contractors, are responsible for compliance with the terms of this Subsection **H**.
 - (5) Permit.
 - (a) Persons and entities seeking a permit under this Subsection **H** shall submit an application on a form
