Cost Information:

The private side service on a Shorewood residential property is typically 40-50 feet long. Private side service replacements are to include two (2) new ball valves, new meter horn setting and restoration. All WI and Shorewood plumbing code provisions apply.

Please provide an estimated per foot cost for **private side lead service replacement**, including all necessary materials and restoration:

\$_____ per foot copper service

\$_____ per foot PVC service (cost does not include grounding of electrical service, homeowner responsibility)

Shorewood policy requires replacement of municipal lead service at time of private lead service replacement.

Please provide estimated per foot cost for **municipal lead service replacement**, including all necessary materials and full restoration of right-of-way per Village of Shorewood specifications.

\$_____ per foot copper service with full restoration of right-of-way per Village of Shorewood specifications

\$_____ per foot copper service (no restoration)

Please submit your response to this request for qualifications no later than April 15, 2022. If you have any questions regarding our Lead Service Replacement Program, please contact Shorewood Public Works at (414) 847-2650.
